

Komádi, Hungary

# Standing Seam Roofing

**Rollforming services and custom made panels**

## The German Way

Our German-tested standing seam panels use double-locked technology so you can be assured your project is engineered to last.

## Architect's Resource

No one understands your needs like we do and no one

can help you like we can. Bring us your building concept and we'll suggest the best ways to design your project so it reflects your creative vision while keeping the end-result watertight and maintenance free. Take advantage of our extensive sustainable design palette and let us help you attain LEED credits. You have superior resources and options here you won't find elsewhere. See for yourself the difference the German method can make in your designs.
